## AR SHREDDED COMBAT

GW 501516, first created by Glaxo Smith Kline is a different type of SARM in that it binds to the PPAR receptor.

Ostarine (aka Enobosarm, MK-2866 and chemically as, (2S)-3-(4-cyanophenoxy)-N-[4-cyano-3-(trifluoromethyl)phenyl]-2-hydroxy-2-methylpropanamide))

### Quantity

30 ML

### Flavour

Alphonso Delight

### Shredded Combat's Each Bottle Contains

- ◆ Andarine
- ◆ Ostarine
- ◆ Cardarine

## Supplement Facts

### What is Cardarine ?

Cardarine (GW-501516) is NOT a SARM. Cardarine is actually a Peroxisome Proliferator-Activated Receptor or PPAR for short. PPARs target androgen receptors which help to stimulate glucose metabolism in the muscle tissues.

### What is Ostarine ?

Ostarine (MK-2866), also known as enobosarm, is a selective androgen receptor modulator (SARM). Ostarine stimulates steroid hormone receptors – androgen receptors – mimicking testosterone

### What is Andarine ?

Andarine is a SARM developed to treat muscle wasting and osteoporosis. Clinical Trials show that it increases bone density and muscle mass.

## What is Cardarine?

GW 501516, first created by Glaxo Smith Kline is a different type of SARM in that it binds to the PPAR receptor. This, in turn, increases the genes involved in energy expenditure.

Cardarine essentially mimics the process of exercise. Cardarine also helps increase fatty acid metabolism and has been known to help with obesity and type 2 diabetes. Endurance is also greatly increased with Cardarine and striations are seen more rapidly as well.

## Warning

All Anabolic Research products are tested for purity and consistency. Must be 21 years of age to purchase.

## SARMS & PRE XT

### SARMS & Pre XT by Anabolic Research

It's a Selective Androgen Receptor Modulator based pre-workout! It promises and delivers powerful energy increases (due to the DMAA), greater muscle gains and improved performance both to strength and speed athletes.

#### Quantity

60 Servings

#### Flavour

Pineapple Mango

#### Highlights

- ◆ Original DMAA Formula
- ◆ Ultra intense muscle strength
- ◆ Extreme energy, endurance & power
- ◆ More Energy Than Ever Before
- ◆ No Crash and No Jitters
- ◆ Intense Pumps & Vascularity
- ◆ Lean Muscle Gain and Fat Loss
- ◆ Incredible Focus

#### How To Use

(Adults)(oral): 1 serving per day. Take up to an hour before, or during periods of physical stress. Mix the product well in 1 or 2 cups of liquid (water, juice, etc.) immediately before consumption. Consult a health care practitioner for use beyond 3 weeks. For occasional use only.

#### Supplement Facts

† Daily Values Not Established		
<b>OTHER INGREDIENTS:</b> Natural/Artificial Pineapple Mango Flavour, Citric Acid, Sucralose, Acesulfame Potassium, Orange Color Powder.		

#### Warning

Risk statements: Ensure to drink enough fluid before, during and after exercise. Consult a health care practitioner prior to use if you have cardiovascular disease and want to increase your level of physical activity, if you have a kidney disease/disorder, if you have high blood pressure, glaucoma, overactive bladder syndrome (instability of the detrusor), if you have a mood / emotional disorder or a psychiatric disorder, if you have diabetes or if you have prostate disease. Consult a health care practitioner prior to use if you are taking medications to treat cardiovascular disease, anti-erectile medications, anticoagulants, antidepressants, opioid pain medications, or other medications. Do not use if you are pregnant or breastfeeding, if you have had a heart attack / myocardial infarction, if you are taking blood pressure medication (hypertension or hypotension), thyroid medications, sympathomimetics or monoamine oxidase inhibitors, cold medicines containing decongestants (phenylephrine or pseudoephedrine), products containing ephedra or ephedrine, or any other blood pressure-increasing medication. Consult a health care practitioner if your cardiovascular status worsens. Avoid taking this product with health products or food that contains caffeine and / or that raises blood pressure (eg, medicines, coffee, tea, colas, cocoa, guarana, mate, orange extract bitter, synephrine, octopamine, ephedra, ephedrine). Some people may suffer from gastrointestinal troubles (such as diarrhoea). It has been shown that caffeine can reduce the blood circulation of the heart during exercise, which could lead to cardiovascular complications such as chest pain and irregular heartbeat even in healthy individuals. If these symptoms occur, discontinue use and consult a health care practitioner.

## SLIN- GDA

This is a very powerful non-stimulant product to help in weight loss.

The problem with insulin is that it is anabolic to both muscle and fat cells. SLIN- GDA is designed to work by manipulating insulin to do what we want it to do and preventing it from doing it what we don't want it to do. SLIN- GDA is meant to help your body use the calories you eat to fuel muscle growth, while at the same time blocking them from entering the fat cells. In other words, the product is formulated to aid in muscle growth while at the same time impedes the formation of fat.

### Quantity

90 Tablets

### SLIN - GDA

SLIN GDA can be administered orally to humans or animals for the purpose of controlling blood glucose as well as improving glucose tolerance. Controlling glucose metabolism is essential for those with impaired glucose metabolism as is the case for those with Type II diabetes where insulin function is not properly functioning. Such administration can also be used for the purpose of enhancing nutrient transport for purposes of athletic performance and controlling body weight and body fat levels.

## Supplement Facts

SUPPLEMENT FACTS		
Serving size : 1 Tablet		
Servings per container : 90		
	Amount Per Serving	%Daily Value
Cinnamon extract	200 mg	†
Banaba Leaf Extract	100 mg	†
Chromium Nicotinate	100 mg	†
Gymnema Sylvestre (75% Gymnemic Acids yields 112.5 mg)	150 mg	†
4-hydroxyisoleucine	100 mg	†
Green tea extract (EGCG Extract 45%)	100 mg	†
Coleus Forskohlii (20% forskolin)	40 mg	†
Green coffee bean extract	80 mg	†
† Daily Values Not Established		
<b>OTHER INGREDIENTS:</b> Dextrin, Magnesium Stearate, Chitosan (from shellfish), Xanthan gum, fumed silica, micro crystalline cellulose		

## How To Use

The best way to use SLIN- GDA is to take 1 tablet 30 minutes before each meal to prime your body for the meal you are about to consume.

## Warning

Discuss with your physician before taking if you have a medical condition or are taking any prescription medications. Stop use and discuss with your physician if any negative effects occur. Do not exceed the suggested dose. Do not take if pregnant or lactating. Must be 18 years old to use this product. Keep away from children. Do not use if the seal has been tampered with. Store in a cool, dry place.

## LIVER-PROTECT

Liver-Protect by Anabolic Research is a unique product that promotes healthy liver function. It contains only the highest grade extracts of all the below-mentioned ingredients. Liver-Protect helps liver cells to regenerate and is often referred to as a lipotropic agent. Lipotropic agents are compounds that promote the flow of fat and bile to and from the liver. In essence, Liver-Protect exerts a tremendous effect in protecting the liver from damage and enhancing detoxification processes. Whether a lifetime of abuse on the liver by chemicals or alcohol is your concern or preventative maintenance is your goal, then Liver-Protect is for you.

### Quantity

60 Tablets

### Healthy Liver Function is Essential!

Healthy Liver Function is essential to proper filtration of the blood in your body. The below mentioned elements in description can be key to providing your system with the nutrients and supplements needed to naturally enhance liver function.

### How To Use

Take two tablets daily. Do not exceed 2 tablets per day.

### Warning

Discuss with your physician before taking if you have a medical condition or are taking any prescription medications. Stop use and discuss with your physician if any negative effects occur. Do not exceed the suggested dose. Do not take if pregnant or lactating. Must be 18 years old to use this product. Keep away from children. Do not use if the seal has been tampered with. Store in a cool, dry place.

## QUAD-SARM BULK WITH B-VITAMINS

Bodybuilding supplements are always in great demand. This is the main reason, why there are lots of manufacturers, who claim to offer the best supplement for gaining lean muscle.

The fact is that there are too many scams out there on the World Wide Web, so buyers have to make sure that their choices are the right ones.

It is a pity to see many people just believe in free trial offers, as they are "forced" to buy certain products after their trial period is ended. It is even worse when the supplements do not deliver what they have expected before.

### Quantity

90 Tablets

### Special Features of Quad-SARM BULK

- ◆ Quad-SARM BULK is the only product on the market that is overloaded with pharma-grade B-Vitamins for energy and metabolism.
- ◆ Quad-SARM BULK guarantees more than just leaner muscles after routine consumption and regular workouts. It ensures monster strength, so athletes can just count on this supplement to obtain the maximum result of their anabolic cycle.
- ◆ The best thing about Quad-SARM BULK by Anabolic Research is its pharma grade ingredients.

Please consult with a healthcare professional before starting any weight loss diet or exercise program.

## ANAVAR RX+ FROM ANABOLIC RESEARCH

Anabolic Research Anavar Rx+ is the solution for you!

Broken down to its basic benefits, Anabolic Research Anavar Rx+ increases nitrogen retention in the body, leading to an environment where increased muscle growth can take place and more testosterone circulates through the body. These increased levels of free testosterone lead to more muscle growth and so on. This process also inhibits glucocorticoid hormones, meaning catabolic hormones, such as cortisol, are controlled. With these hormones controlled, fat gain is halted and lean muscle can grow uninhibited.

### Quantity

180 Tablets

### The True Muscle Builder to Increase Lean Muscle Mass, Size and Strength!

- ◆ Advanced Formula of Anabolic Compounds
- ◆ Stimulates and Drives ATP into Muscle Cells
- ◆ Includes L-Arginine and the Arginase Inhibitors ABH and BEC for Maximum Pumps
- ◆ Includes Ecdybolin, Ecdysterone, and 6-Keto-Diosgenin for Increased Protein Synthesis
- ◆ Enhanced Phosphocreatine for Intense Muscular Contractions Formulated with the Exclusive Controlled Release Technology

### Supplement Facts

## SHRED PRO

Shred Pro achieves this by utilizing 3 potent ingredients.

**Brassaiopsis glomerulata:** the plant is a source of aromatase inhibitors that effectively increase testosterone production, inhibit estrogen synthesis in men and regulate the functioning of the endocrine system.

**Epiandrosterone** is a derivative of DHEA that can be found naturally occurring in pine pollen. Epiandrosterone is a precursor to Stanolone, also known as DHT which is commonly referred to as one of the kings of all male hormones.

**7-OXO DHEA or 7-KETO DHEA,** also known as 7-oxoprasterone, is a prohormone produced by metabolizing the prohormone dehydroepiandrosterone (DHEA).

### Quantity

## ZEUS 11 OXO WITH 3 SARMS

**Max LMG** - Not a 17aa steroid so liver toxicity is not as harsh as with 17aa steroids, however, the ethyl group on C-18 may make it slightly more toxic than a non-ethylated steroid (while increasing its oral bio-availability). Max LMG is progestin designed to give solid gains in muscle mass with low water retention. This means muscle building with Max LMG in your cycle gives you higher quality hardening effects. Since it acts as anti-progesterone, there are decreased negative effects of extra estrogen and increased libido.

### Quantity

30 Caplets

### Monster Mass is One of the Strongest Prohormone Products on the Market

- ◆ Dry gains – minimal water retention
- ◆ Doesn't convert to estrogen
- ◆ Boosts strength levels
- ◆ Helps promote the development of fuller muscles
- ◆ Considerable size and mass gains
- ◆ Allows you to train longer and harder, which means you get results quicker
- ◆ There are quite a few reports about 3% body fat reduction while gaining as much as 6 pounds of muscle in a 4-week cycle

## How To Use

We recommend 4 weeks on Monster Mass initially, and no more than 6 for experienced users. Depending on your goals, you can adapt your dosages – for cutting, lower dosages work perfectly, whereas for bulking, tapering up the dosage will optimise results. Here are a few protocols you might want to consider: Newbie Users: 4-week cycle (Week 1-2, 1/2 tablet per day, Week 3-4, 1 tablet per day) Experienced Users: 4-week cycle - 1 full tablet a day for 4 -6 weeks straight. Recommended: Liver Support throughout your cycle After Cycle: It is recommended that you use a post cycle supplement like Anabolic Research STEEL PCT. This will help you get your natural testosterone levels back to normal and help keep the gains you have made.

## Warning

DO NOT exceed the recommended dose or duration. This product should only be used by healthy adults at least 21 years of age. Do not use if pregnant or nursing or if you are at risk of or being treated for diabetes, liver problems or high blood pressure. Consult your health care professional before using any dietary supplements.
